

AIMS REGIONAL SEMINAR AND ONLINE WEBINAR

AUTHORISATION INFORMATION SESSION

WEDNESDAY 13 MARCH, 4:00PM

Western Australian Mine Surveyor's Authorisation Information Session

Please join Shane Watson (SCAC Industry Representative) as we discuss the current status of the WA Authorised Mine Surveyor's Certificate application process. This information session will run through the guidance material that has been developed, how a current Authorised Mine Surveyor applies for a new certificate, how a candidate applies for Authorisation and discuss the current status and decisions around when the application process will become available.

This information session will also be available online to those that can not attend in person. We strongly encourage face to face attendance but understand the difficult nature of attending for those that have to remain onsite.

A Q&A session will be held at the end for any of those tricky questions you may want to ask, this will be available for those online as well, via chat questions. We will ensure we have sufficient time to get through all the questions to ensure everyone has a clear understanding of what is coming.

Then join us afterwards for a networking event, where you will have the opportunity to ask more questions and talk to other industry peers

- IN PERSON - Wednesday 13 March
