

Your Evolution

Graduate Program 2021

If you want to be part of a fast-paced organisation, that is small enough that everyone knows who you are, but big enough to have opportunities for you to develop, then Evolution Mining is the place for you.

Throughout our 2 year graduate program, you will work on a range of sites, and have your development needs catered to by expert external facilitators and industry professionals, all whilst making a real impact on the business.

**Applications are now open
and closing 5th of April for:**

- Asset Management
- Geology
- Geotechnical Engineering
- Metallurgy
- Mine Surveying
- Mining Engineering
- Sustainability
