## Graduate Mine Surveyor

**Copper and Zinc Assets – North West QLD and NT**

**Job Ref: GRADSUR21**

**Glencore Copper and Zinc Assets has a number of opportunities opening to graduating or recently graduated university students to join our Mine Surveying Graduate Program. You will be an important part of a global company that wants you to succeed, not just for the benefit of the organization but also so you can achieve your own career goals.**

As a Graduate Mine Surveyor you will work in one of the world's most iconic mining districts, which has pioneered several Mining innovations whilst producing some of the current Local and Global Mining and Resource leaders. Our industry-leading and experienced professionals will challenge you each step of the way – to think differently, ask questions and come up with creative solutions. You will have access to unrivalled opportunities and unlimited potential to grow your career. This is your opportunity to test your skills and creativity in real situations, working with some of the best in your field. If you are keen to grow with us, relish the opportunity to work and live in North West Queensland or Northern Territory and build an exciting career, we want to hear from you.

### About the role

As a Mine Surveyor Graduate, you will be exposed current mine surveying techniques and equipment, and take part in the critical aspects of mining provided by the Survey Departments. You will be exposed to some world-class technologies and you will provide directional control for development mining, other set-outs and production drill mark-ups, install and maintain the mine survey control network, undertake void surveys using Optech / CALS survey equipment and measure / calculate mine volumes for surface stockpiles and underground voids.

Under the guidance of our experienced and skilful surveying team, you will contribute to set out blasting patterns and give direction to the mining operation to ensure that all development and mining is executed according to the specific mine design. No two days are the same, and if you are looking for a challenging but rewarding career as a surveyor, then this is the right opportunity for you.

### The successful applicant will have:

- A Bachelor of Science, Bachelor of Spatial Science or similar
- Have graduated from university within the last 2 years

### Why choose Glencore?

With operations across the globe, there is a world of opportunities waiting for you at Glencore. Glencore provides unrivalled career and development prospects, great communities and the opportunity to work with leaders in your field. As part of Glencore's Graduate Program, you will:

- Receive structured, professional development with a real focus on-the-job experience;
- Have scheduled networking and social events with other graduates and members of the senior management teams;
- Be mentored by experienced professionals in your field and receive practical support from business leaders;
- Attend a structured Graduate Professional Development Program designed to accelerate your leadership potential; and ultimately
- Be assisted to achieving your chosen career trajectory, with many of our graduates going on to become leaders in our business.

## Benefits

You will be entitled to a comprehensive range of benefits aimed at attracting and retaining our most valuable asset, our people. We offer competitive remuneration and other financial benefits including medical and insurance discounts, discounts with Virgin, Qantas and Lenovo as well as use of Glencore Rewards, our online discount platform with 100s of retailers. While it is easy to focus on remuneration, other benefits include training and development, ambassadorship opportunities, health and lifestyle, recognition and reward programs as well as lifestyle rosters.

## Locations

- **Mount Isa, North West Queensland (Residential).** Mount Isa Mines has the largest network of tunnels in the world >500km accesses every day, routinely mining stopes in excess of 200kt. Mount Isa is a thriving city of 23,000 acting as a hub for regional business, transport, services and government in north-west Queensland. With every sporting club you can think of, golf course, restaurants, gyms and movie theatre, there is always plenty to do. Explore the region with some of the best fishing and camping locations right at your doorstep. Residential roles will also attract relocation assistance, three months' transit accommodation, as well as housing assistance.
- **McArthur River, Northern Territory (FIFO from Darwin).** McArthur River Mine (MRM) produces zinc, lead and silver from an open cut mine. This is then processed and stored onsite before being transported to Loading Facility and shipped to our customers all over the world. Situated southeast of Darwin, McArthur River Mine (MRM) is a world-class zinc-lead mine with a long future ahead of it. Flying in and Out from Darwin, you spend your onsite time in a camp with a dining room, bar, gym, movie theatre, golf driving range, volleyball courts, cricket pitch, and swimming pool.
