

Surveyor | Tahmoor Coking Coal Operations

GFG Alliance has an agile, entrepreneurial culture with high energy, strong levels of ambition, and sustainable growth plans. This brings opportunities for GFG's people and businesses to flourish and develop. We work with our people to determine how we can grow our business and our future. We are committed to uncompromising levels of safety, strong customer centricity and diversity. Wherever they are in the world, our people are our greatest asset. We welcome you to join us.

SIMEC Mining, a wholly owned subsidiary of GFG Alliance has operations in Whyalla, South Australia and Tahmoor, New South Wales. Our commodity portfolio consists of mining and mineral processing plants from pit to port. Tahmoor Colliery is an underground longwall coal mine with an associated coal preparation plant producing high quality coking coal for global markets. Tahmoor Colliery has been in operation since 1979 and has a total workforce of approximately 350 personnel. Tahmoor Colliery is located near the scenic Southern Highlands of NSW, and only a short 45-minute drive to the idyllic beaches of the South Coast NSW.

We are seeking a motivated and driven Surveyor to join our Technical Services Team and assist in the completion of survey tasks.

In this role, you will report to the Mine Surveyor. Your primary role will be to assist in maintaining accurate survey control across the site, supporting Operational departments, as well as other Technical Services and Engineering functions. You will be responsible for maintaining accurate survey records, including collection and storage of spatial data, ensuring a high level of data integrity. You will also provide drafting assistance, and accurately measure, record and distribute production data. This role will enable you to take initiative and identify continuous improvement opportunities.

You will possess a tertiary qualification in Surveying and mine surveyor registration will be highly regarded. You will be highly competent in AutoCad and Microsoft Excel. You will have a strong understanding of both the technical and operational aspects of coal mining. Essential attributes include a safe work ethic, a drive to succeed, organisation skills, punctuality, a strong attention to detail, excellent interpersonal skills, and the ability to work in a high pressured environment.

Across our different business units, we offer career opportunities for people who share our drive, passion, and ambition. From apprentices and graduates to experienced professionals, we are committed to offering fulfilling careers and the chance to grow as our business grows. We would love you to be part of our journey. Visit our website today and define your new career.

For further information on this role, please contact Brooke Johnson on [\(02\) 4640 0007](tel:0246400007). Applications will close on COB Sunday, 18th November 2018.
